TECH SKILLS

- Python (FastAPI, LangChain)
- Node.js (Express, Mongoose)
- C++ (FreeRTOS, ESP32)
- Flutter (Modular Architecture)
- React.js (Zustand, Hooks, Styling)
- Database (MySQL, MongoDB)
- Figma, Adobe (Ps, Ae, Ai, Pr)

SOFT SKILLS

- Critical Thinking
- Teamwork
- Task Management
- Leadership
- Effective Communication

LANGUAGES

- English (Intermediate)
- Sinhala (Fluent)

PROFILE

I'm an IT undergraduate at the University of Moratuwa with a strong interest in building practical and creative technology solutions. I enjoy designing and developing systems that blend usability with performance – from web and mobile applications to smart, efficient embedded systems. I'm passionate about learning new technologies, improving software security and design practices, and exploring how AI can make everyday tools more intelligent and effective.

EDUCATION

BSc. Horns Information Technology

2023 - Present

Faculty of IT | University of Moratuwa

GPA: 3.79/4.0 (to 2nd semester)

Grade 6 to AL

2013 - 2022

Dharmasoka College Ambalangoda

AL Results: Z-2.0086 (AAA-Mathematics)

PROJECTS

LORA-10 Web Dashboard Development

A central platform to manage LoRa Mesh networks, powered by a custom protocol that I created. Provides real-time Map, device status, and message tracking between base stations and field devices.

Technologies: React, Express, MySQL, Sockets.io, C++(protocol)
Mapbox

RentMe-Mobile App

To simplify the process of renting and listing items. The app allows users to browse available products, manage their own listings, and communicate securely with renters or owners.

Technologies: Flutter, Mapbox, QR-Scanner, Provider

ACHIEVEMENTS & HACKATHONS

Coin Ceylon(2025) - blockchain competition. (Organized by CoinCeylon) - *Participant certificate*

IDEALIZE(2025) - Web Design competition. (Organized by AIESEC-UoM) - *Participant certificate*

Writing a Research paper on "Enhancing LoRa Communication Efficiency with a Structured Binary Messaging Protocol" - *ongoing*
